Attached is the final draft document  
It reflects all final changes I identified in my last email.

Below are the releases for the images in the book.

I have contacted Laurie Davies-Adams about getting images for the book, as well as for the display at the conference. I will touch base with her again in the near future about getting these.

I will follow up shortly with a call to run through things again to see that we remain on track.

Thanks,  
Tom M
